Experience

Front-End Development Course Feb 2022 - Present
Knowledge Academy *Online course*

- Worked on coding fully responsive websites from scratch using HTML5, CSS3, Bootstrap5, solving tasks within a study group.

Front-End Development Dec 2021- Present
Elzero Web School *Online course*

- Elzero web school has been a great source which has opened my eyes into some nice Front-End tips and tricks.
- I've started learning JavaScript ES6 that's shared on this channel.

Technical Skills

Programming languages and tools: Experienced in HTML5, CSS3, Bootstrap5, JavaScript and familiar with Java, Github.

Soft Skills

Fast learner, hard worker, extra attention to small details, team player, work under stress, good communication.

Personal Projects

- **Kerri Project:** an HTML5, CSS3, Bootstrap and JavaScript with the use of typed.js library for creating the title's typing animation.
[Kerri Project](#).
- **Osaka Project:** Osaka website was coded with HTML5, CSS3 and Bootstrap 5.
[Osaka Project](#).
- **First Project:** My first responsive HTML, CSS website in which I've applied some media query and hover effects.
